

Hello, my name is  
Anne-Marie.

I'm looking to recruit  
15 adults who have  
an acquired facial  
difference to take  
part in my study,  
to explore living with  
facial difference

Living with facial  
difference?  
What's the reality?

Reduce ignorance and inform  
others through sharing your  
experiences!

## A life lived: experiencing an acquired facial difference

### What is involved?

For information  
please contact

I would like to conduct an interview with you about your life before, during and after you became facially different. Your story told in your words! **It would be good if you could bring a personal possession, something to help tell your story.**

- You can have someone with you.
- You can opt out of any part of the interview at any time.
- The data will be anonymised and kept confidential.

Anne-Marie,  
the  
researcher
